-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

This is the third office action for serial number 10/090,494, Seat Rail System with Position Sensor, filed on March 4, 2002.

Drawings

The amended drawings filed March 3, 2004 is objected under 35 U.S.C. 132 because it introduces new matter into the drawings. Figures 14-17 introduce new material, which is not supported by the original disclosure. The original disclosure fails to disclose the contact plate member being a single pin. Applicant is required to cancel the new matter figures, namely figures 14-17 and the figure descriptions for these figures in the reply to this Office Action.

Specification

The amendment filed March 3, 2004 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material, which is not supported by the original disclosure, is as follows: the contact plate member comprises a single pin.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

Claim 15 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the

Art Unit: 3632

relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. There is no support in the originally filed specification or drawings for said contact plate member comprising at least one pin. While Applicant asserts no new matter has been added, re-examination of the original disclosure of this application reveal no disclosure of a single pin.

Claims 8-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 8 recites "a seat rail member", which is found at lines 2 and 3 and is a double inclusion of an elongated upper and lower rail bodies, which is found at lines 3 and 5 of claim 1 and lines 3 and 5 of claim 2, respectively. The inclusion of the same element twice makes the claim indefinite. Similar problem occurs in claims 9-14.

In claim 8, line 1, "the seat rail system" lacks proper antecedent basis. Similar problem occurs in claims 9-14.

Allowable Subject Matter

Claims 1-7 are allowed.

Response to Arguments

Applicant's arguments with respect to claims 8-14 have been considered but are moot in view of the new grounds of rejection.

Art Unit: 3632

Remarks

It is unclear if applicant intends to make dependent claims 8-15 independent combination claims or for these claim to remain as dependent claims. It appears as written that these claims are independent claims which would require an additional fee. Please clarify.

Conclusion

Applicant's amendment necessitated the new grounds of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
